

Nature Energy is proposing to “Design, build, own & operate Biogas Facility on 50th ave & Hwy 128.

There will be a bus going to the BioEnergy facility in Le Sueur, MN. You will not be able to enter the plant, but will be able to walk around parking lot & assess the smell in the air. Nature Energy will be buying lunch at Pizza Ranch with the intent to have a manger from the Le Sueur plant answer questions.

This will likely be the week of Feb 24-28 or the following week. Would leave town hall at 9am. Contact me if you are interested in going on the bus.
